Surge Protection

Get 100% coverage for your most sensitive equipment. Designed with trusted, state-of-the-art TPMOV® (Thermally Protected Metal Oxide Varistor) surge protection technology to eliminate the potentially hazardous failure.

Actuators

Designed to provide reliable control of 2-way and 3-way diverter valves for pool/spa combination and water features.

Mechanical Timers and Freeze Protection

Keep lights and appliances on when they need to be, off when they don't. Protect pool and spa equipment against freeze damage.

J Boxes and Transformers

Ideal for low voltage and LED Lighting.

Weatherproof Covers

Ensure outlets and controls stay protected from the elements and out of harm's way.

TOTAL SURFACING SYSTEMS

A complete line of sealers, resins, integral colors and professional coatings to create and protect concrete and stone in extreme environments. ICT products are widely used on Pool Decks, Patios, Driveways, Hotels, Condominiums, as well as Restaurant Floors and Counter Tops.

H₂COOL

THE CHILLEST WAY TO KEEP
YOUR CONCRETE COOL

Our new **H₂COOL** products are formulated with solar infrared reflective pigments, which will reflect IR rays that cause heat and cause surface deterioration.

Reflection of IR rays will keep the surface cooler to the touch and give a much longer lifespan than traditional pigmented coatings!

THERE'S ONLY ONE LOOP-LOC.

HERE ARE 15 REASONS WHY.

- 1 A LOOP-LOC cover is the only safety cover to be awarded UL certification year after year.
- 2 Mesh construction lets rain and melting snow drain right through.
- 3 LOOP-LOC is so durable, it's backed by a 15-year prorated warranty and so safe, it may reduce your liability insurance.
- 4 LOOP-LOC is so lightweight, putting it on and taking it off your pool is a snap.
- 5 LOOP-LOC blends beautifully into any backyard, with your choice of standard Spring Green or four optional designer colors.
- 6 LOOP-LOC's patented CABLE-LOC™ and GAPGUARD® Child Safety Intrusion Barriers close the gap created when a pool includes raised obstructions located at the cover's edge.
- 7 The polyester bonded thread used in LOOP-LOC covers is 30% stronger in thread size and produces a higher margin of safety in all seams (compared to our competitors).
- 8 Double-perimeter webbing and double-thick straps give our covers an incredibly high break strength.
- 9 We use extremely high-strength, non-corrosive 302/304 grade stainless steel springs for superior weight-bearing capacity.
- 10 Unique brass anchors recess flush with the deck when the cover is removed.
- 11 We sew the webbing to the cover using contrasting white thread, instead of black, to ensure that not a single stitch is missed.
- 12 We use 87% black yarn in our fabric for superior UV stability.
- 13 Chafe strips are manufactured with exclusively virgin material – not "regrind", which tends to stain decking.
- 14 Non-corrosive aluminum tips are double-notched for stability.
- 15 The large X-tacking on LOOP-LOC straps is sewn manually for precise placement and maximum strength.

LOOP-LOC is proud to introduce "IMAGE-LOC", the revolutionary way to measure covers with photos. Never A-B again! One person, one camera and following simple instructions will achieve highly accurate cover measurements.

LOOP-LOC SAFETY POOL COVERS
COMPLEMENT YOUR OUTDOOR DECOR!

BLACK GRAY GREEN TAN BLUE

POOL PRODUCTS

There is no replacement for chlorine/bromine in pool water disinfection. For any alternative treatment/sanitizer to replace chlorine/bromine, it must:

- Provide a stable measurable residual,
- Be a biocide that kills viruses, bacteria and algae, and
- Oxidize impurities introduced by bathers.

Chlorine/Bromine is the only sanitizer that fulfills these three functions. However chlorine/bromine is not the best oxidizer. Incomplete oxidation accounts for up to 70% of their usage and 100% of their problems.

The UltraPure™ Automatic Water Cleaner™ produces the strongest oxidizer available (ozone). The UltraPure™ Automatic Water Cleaner™ does the oxidation work normally attempted by chlorine/bromine. Obnoxious combined chlorine/bromine compounds are eliminated. Chlorine/bromine then only provides a “free available” residual. All problems and wasted chemicals associated with combined chlorine/bromine are eliminated. The UltraPure™ Automatic Water Cleaner™ continually burns out contaminants introduced by swimmers. This function is no longer fulfilled by chlorine/bromine.

Ideal for in ground Spas, or pre-wired for most Portable Spa Packs.

ASK ABOUT THE AWG AUTHORIZED PROFESSIONAL CONTRACTOR PROGRAM

ATTENTION TO EVERY DETAIL SATISFIES EVERY NEED!

Adding a high-end pool or spa reflects a desire for the good life. It's an investment that enhances lifestyle – an oasis of relaxation and recreation, accessible any time, right outside the door.

Today, pool and spa builders must promise fast heat-up and comfortable water temperature, available quickly and efficiently. The master builder's pool heater checklist also includes...

- Superior quality for trouble-free performance, backed by service-friendly design
- Attention to details for fast, easy installation to reduce labor and material costs
- Installation flexibility to work seamlessly with the aesthetics of the new pool or spa

Lochinvar® is the most innovative manufacturer of water heaters and heating boilers, serving the extraordinary demands of commercial buildings throughout the world. Our engineering excellence and commitment to understanding customer needs has produced EnergyRite®, the industry's most advanced pool and spa heater, for homeowners who want the best of everything.

**HOT PERFORMANCE,
COOL FOR THE ENVIRONMENT!**

EnergyRite heats up fast, saves money and helps conserve our natural resources with Low-NOx emissions that meet or exceed the most stringent "green" standards, anywhere in the country!

EnergyRite®

Pool & Spa Heater

HEAT UP FASTER!

Five EnergyRite models offer power to guarantee speed-heating for any size pool or spa...from 150,000 Btu/hr to an industry-maximum 400,000 Btu/hr. And Lochinvar's engineering delivers the highest thermal efficiency in its class. It's a combination that provides the industry's fastest heat-up time, and uses less energy so homeowners save money every time they heat their pool or spa!

THE FORMULA FOR THE FASTEST COMFORT HEAT-UP IS SIMPLE.

1. Provide enough heating power to raise water temperature quickly, on demand.
2. Engineered for efficiency, driving maximum heat into the water.

EASY VENTING FOR EVERY INSTALLATION:

COPPER-FIN²®

**UP TO 89%
THERMAL EFFICIENCY**

SCALE AND METAL CONTROL

Great for Pool Startups!
Removes and helps prevent calcium scale and metal stains

SC-1000 Scale & Metal Control is a non-phosphonic acid sequester formulated to control minerals and metals in the water. Use SC-1000 during initial fill-up of the pool, along with the Orenda App to balance the LSI of the water. Because SC-1000 is not phosphate-based, it does not conflict with phosphate removers like PR-10,000.

ENZYME + PHOSPHATE REMOVER

All-Natural enzyme formula reduces non-living organics and phosphates

CV-700 Enzyme + Phosphate remover improves water clarity and chlorine efficiency. The enzymes break down and digest non-living organic waste, which helps chlorine get through contamination and build a residual of free available chlorine for sanitation. Removing phosphates benefits chlorine too; phosphates weaken chlorine (HOCl to OCl⁻). Visit our website to learn why.

ENZYME WATER CLEANER

All-Natural formula reduces non-living organics to create optimal water clarity

CV-600 Catalytic Enzyme Water Cleaner Concentrate is a unique, stabilized enzyme that effectively breaks down and digests organic contaminants commonly found in pools, spas and other recreational water. Routine application of CV-600 will positively maintain water clarity, directly address organic contamination, and boost chlorine efficiency.

CHITOSAN CLARIFIER + ENZYME

All-Natural clarifier with no synthetic polymers or dyes

CE-Clarifier+ Enzyme is a potent pool clarifier. The Chitosan attracts particles to be filtered out, while the enzymes break down and digest oils and other non-living organic waste.

DOWNLOAD OUR APP

PHOSPHATE REMOVER CONCENTRATE

All-Natural formula removes phosphates on contact

PR-10,000 is the strongest, most concentrated phosphate remover available in the aquatics market. It is a rare-earth formula that reacts immediately with phosphates on contact. It crystallizes phosphorous, which then falls out of solution to be filtered out or vacuumed. PR-10,000 will cloud up the water for about 24-36 hours in the presence of high phosphates, but the cloudiness depends on the amount of phosphates in the water. Cloudiness is a normal part of the reaction. Watch videos on our website for more.

PRE-DRAIN SYSTEM SCRUB

Pre-drain system scrub for spas and hot tubs

SPA-500 gives your spa or hot tub a deep clean prior to draining. Removes non-living organic waste and other nasty buildup in the system.

SPA CLARIFIER + ENZYME

Chitosan clarifier for spas and hot tubs

CE-SPA is our new, all-natural chitosan clarifier for spas and hot tubs, with added enzymes for oils and non-living organic waste.

#24 Blue Vinyl - 24 per shipping carton.
#26 Clear Vinyl - 24 per shipping carton.

CAT. NO. 25
CONTAINS: Two pieces of 12 Gauge Clear Vinyl Packing Material. Over 260 square inches.
PACKED: 24 per shipping carton.

**CAT. NO. 110
POOL REPAIR KIT**
CONTAINS: 4 oz. can of #100 vinyl adhesive, dauber and 500 sq in of patching vinyl. Our DELUXE KIT features an ample supply of liquid adhesive and plenty of vinyl.
PACKED: 24 per shipping carton.

For over half a century, the Boxer "100" Vinyl Repair Kit (the original Boxer product) has been a popular tool for mending vinyl.

Since 1950

THE BENEFITS ARE CLEAR.

Cleaner, Cleaner Water

BrightLine™ quickly and efficiently removes particles as fine as 5 microns

Longer Lasting

Since BrightLine does not breakdown like typical sand filter media, it can last up to 3 times longer

Backwash Savings

Because BrightLine utilizes the entire filter bed and does not pack or channel, backwashing takes less time and is required less frequently, saving water and chemicals

Less Media Required

BrightLine is 20% less dense than typical sand filter media, requiring less media to fill the same space

Environmentally Friendly

BrightLine is made from 100% recycled materials
Available in 40 lb. clear, plastic bags.
For use in sand filters including those which specify #20 silica sand.

BETTER THAN SAND.

LET BOXER'S FAMILY OF PRODUCTS HELP KEEP THE FUN IN THE POOL!

Unbeatable Benefits – Features the customer wants means more sales to you.

- EZ-DE is the product your customers really want PLUS the big box and national pool stores don't stock it so it will drive their traffic to your store
- The EZ-DE bag looks great on the shelf and the smaller bag is much easier for customers to grab and buy than that old big messy box or bag of DE.
- Since the customer is not stocking that half used box/bag in their garage, they come in to your store more often. Every time they need to backwash they will come in to buy a bag of EZ-DE, plus whatever else catches their eye.
- Higher margins. EZ-DE has more than twice the margin per pound than regular bag/box DE. Sales to date prove that customers are willing to pay more for all the great features EZ-DE provides.

Awesome Features - Both you and your customers know that backwashing and recharging their DE filters is a real pain. EZ-DE solves those headaches.

Nobody likes lugging that big box or bag of DE home → then out to the pool → then figuring out how many pounds of DE their filter needs → then converting pounds into scoops or cups or coffee cans → then the mess of getting the DE out of the bag and into the skimmer and not all over their clothes and pool deck

It's no wonder it's rarely done right or that sometimes they skip the whole ordeal all together.

- EZ-DE is super simple to use – no measuring, no scooping, just tear – pour - and toss!
- It is high quality DE made in the USA. It is not fiber or cellulose.
- It is smartly sized and packaged into easy open plastic bags
- It is precisely measured for 1 backwash, 1 bag = 1 recharge
- Available in the 3 most popular filter sizes – 36sqft, 48sqft, and 60sqft.
